

McKinnon Basketball is proud to announce our major fundraising initiative for 2010.

Promotional Beverages

The latest concept in health conscious fundraising!

Rather than support multinational drink and confectionery companies, we are going to sell our own brand of bottled spring water, promote our association, our sponsors and our community!

We ask you, our valued supporters, friends & family members to purchase your bottled water through a McKinnon Basketball representative, rather than at the supermarket or convenience store and the profits will go directly to making McKinnon Basketball a stronger & more sustainable organisation.

Funds raised by this program will be put to our new "building fund", initiated to give our association a head start on our commitment to the new courts and facilities being built on East Boundary Road.

A big thanks to **NOIROT**, our major support sponsor with this initiative. Please consider **NOIROT** for all of your heating and cooling needs. Please support a strong supporter of the McKinnon Basketball Association.

Noiro - Ph: 03 9563 2778 Email: sales@noiro.com.au Web: www.noiro.com.au

HOW IT WORKS

Simply order the amount of water you would like to keep at home with a McKinnon representative - 24 bottles per case

The club representative will record your order on the tally sheet, along with your name, address and contact number, then take payment and issue you with a club receipt.

Once the fundraising drive is complete (approx 3 week duration) - the order will be tallied & the water will be produced by our supplier - PBA

The club representative will then arrange delivery to all those who have ordered from them.

FORGET CHOCOLATE DRIVES. FORGET RAFFLES

McKinnon Basketball are proud to run this Healthy Fundraising Program as part of promoting an active & Healthy lifestyle for all of our members and the wider community!

For more information on McKinnon Basketball Association, log onto our website at www.mckinnonbasketball.org

There will be major prizes awarded to the those members that sell the most cartons - details to follow!

THE PRODUCT

The Water provided is a single source, still mountain spring water from regional Victoria
